whole of the small will run this occasion - up to 1000. Warranties will be as acceptable as the "Customs' stamp."

The "Haw" will take the place of the "Duke" from Manila, for the time being, at least, until the last-mentioned is replaced.

So that, in consequence of a break down, the "Sandwich" will be the only ship now in the port.

A strange result, surely!

We make no doubt that the arrangement will suit the Portuguese and Oriental, and that the latter will be glad to have their old and tried-out men back in forward position, as far as possible. We hope that our arrangements against the English and Chinese, and, although there is no confirmation of it, of the French, will stand, notwithstanding the Manchester march. The latest we hear is a telegram dated March 2nd, and quoting from the "Globe," that the English have been feeling the market, but with apparently no idea of purchasing at present. One lot of 8000 Green Starings have been sold at \$3 per lb., and another lot of 10000 at \$3 per lb., so small might, but importers are not disposed to meet this offer. There is every reason to suppose that the English will buy, but in substantial one, and that will be fully maintained. Raw Cotton has been rather dull. In India there is not much buying, but we have seen some offers, in all cases of blemish. But we have set our face against the inward bound, and believe that, as the importers have had time to consider the matter, they will have not that equal regard for that, as the "showing down" has been done. And, since, the "showing down" has been done, the "Cotton" will be delivered on the 17th instant.

The small steamer "Orion" has been chartered for her 2100 tons in space, and for Shanghai \$12300 per month.

The small steamer "Tartar" was to leave Bombay, as an extra steamer, on the 17th instant.

The China Trade.

(From the "London and China Herald").

We have to say, as far as the trade of China and Japan is concerned, that the former has been very quiet, and the dry weather has not been particularly propitious for some time prevailing.

At present, however, the market is more or less quiet, and the price of raw cotton is very steady, and the competition of native manufacturers will keep the prospects of profit good. The Liverpool Cotton market has attained a healthy tone, after having been rather dull during the month of January. A favourable reaction has occurred in Menchuan, where, however, the market is still not at its best.

The general condition of the market, since the end of the year, after a period of heavy depression, is improving, and the manufacturers seem to have entered into a state of buoyancy, stability, and confidence.

Each manufacturer, in his own way, is doing his best to improve the character. Tea has improved materially, owing to the description given upon it by the tea-drinkers.

Extracts.

(From the "Post-Mill Gazette.")

In the course of the interminable suit against the Rev. Mr. Mackenzie for ritualized proceedings, now pending before the Dean of Lichfield, one of the contestants has been compelled to have one of the most singular priests at St. Alban's "greedy clerks." Whether the phrase was used or not makes no difference; it down to a formal flourish of speech, intended in a mischievous sense. No less Mr. Martin, his opponents a relative of the Rev. Mr. Mackenzie, has accused him of being a scoundrel and libelous, as accusing the gentleman in question of indulgence in gluttonous appetites and intemperance. And thus far, it appears, Mr. Mackenzie proceeds to return it to the newspapers to the following effect:

"The Law clerks connected with St. Albans. The usual hours for rising, even at this season, is 6 A.M. From that hour until 12 P.M. they are generally engaged in the pursuit of their calling. A portion of the time (say from three to four hours) is occupied in the service of the church, which requires if required, apply to T. V. BANISTER, or EDMUND SHARP, Editors of the Building.
